PARTNERED WITH :

ABOUT US

Manley Lavender established his Consulting services with the focus on delivering high quality leadership/mentoring and business consulting services to Durham Region/GTA community's and beyond. We have experience with nonprofit, private and government sector businesses, offering in person and virtual support.

Manley has performed the role as leader/mentor/coach by establishing a trustworthy and positive relationship with young people, colleagues and clients while aiming to foster their personal, professional and social development. Furthermore, as a role model, Manley has inspired confidence and ambition in mentees, helping them to recognise their potential and make constructive life choices.

TESTIMONIALS

"Community Care Hospice Services is committed to providing educational events to our volunteers and staff. Understanding about loss and how it impacts the lives of the clients we support is a key tenet of our Hospice philosophy. Manley Lavender, Performance Coach and Rare Disease Advocate introduced our participants to a life lived with Myasthenia Gravis. He shared his insights around the medical, social and personal impacts he has learned to live with after being diagnosed with a rare disease. Our group found the presentation to be both thought-provoking and inspirational. He is a strong speaker with a compelling story."

JANICE,
COMMUNITY CARE HOSPICE SERVICES
